More gate open for easier access for plants transport to garden.

None

Parking at garden more to get compost/ plants and harvest season

Having a carpool to help those with no car so they could keep our farme well like pick inserts /palate bottles off our plants.

For those with personal cars, the gate should be opened when bringing our plants to farm and during harvest time.
A public transportation would be great around Jun and October.

Wave parking (sometimes no parking available)

If the opportunity to have a car just to drop off those who needs transportation. Pick one designated place to Pick and Drop-Off.
